INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Tobacco Settlement Authority

We have audited the accompanying statements of net deficit of the Tobacco Settlement Authority (the Authority), at June 30, 2010 and 2009 and the related statements of revenues, expenses, and changes in net deficit and cash flows for the years then ended. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Authority as of June 30, 2010 and 2009, and the results of its operations and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The accompanying Management's Discussion and Analysis on pages 2 through 6 is not a required part of the financial statements but is supplementary information required by the Governmental Accounting Standards Board. This supplementary information is the responsibility of the Authority's management. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were conducted for the purpose of forming an opinion on the financial statements taken as a whole. The supplemental information on pages 16 through 18 is presented for purposes of additional analysis and is not a required part of the financial statements. The supplemental information, which is the responsibility of the Authority's management, has been subjected to the procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED JUNE 30, 2010 AND 2009

As management of the Tobacco Settlement Authority (the "Authority"), we offer readers of the Authority's financial statements this narrative overview and analysis of the financial activities of the Authority for the years ended June 30, 2010 and 2009. This overview and analysis is required by accounting principles generally accepted in the United States of America ("GAAP") in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments* ("GASB 34").

FINANCIAL HIGHLIGHTS

Tobacco Settlement Revenues ("TSRs") of \$44 million and \$55 million were recognized as revenue in the fiscal years ended June 30, 2010 and 2009, respectively. In accordance with the GASB 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*, \$22.4 million TSRs applicable to cigarette sales between January 1, 2010 and June 30, 2010 were recorded as accrued TSR Receivable as of June 30, 2010 while \$24.4 million TSRs applicable to cigarette sales between January 1, 2009 and June 30, 2009 were recorded as accrued TSRs Receivable as of June 30, 2009. No additional bonds were issued during 2010.

During the fiscal year ended June 30, 2010:

- Total assets decreased by \$2.7 million to \$83.5 million primarily due to the decrease in the TSR receivable of \$2.0 million and a \$0.4 million decrease in cash equivalents due to the use of available liquid assets for bond payments.
- At year-end, the Authority had total net bonds payable of \$414.9 million, net of discounts. This represents a net decrease of \$17.2 million, or 4%, resulting from principal payments on bonds.
- At June 30, 2010, the Authority had a reduction of \$14.6 million (4.2%) in the Net Deficit over that of the previous fiscal year end.
- The interest income decrease of \$1.2 million was due to the prior year's midyear investment of the reserve funds in short term money market funds with yields less than that of the investment agreement terminated due to provider default.
- Bond interest expense decreased \$1.6 million (5.3%) as bonds payable continued to decline and turbo redemptions were applied to the higher yield coupons.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial statements consist of three parts: Management's Discussion and Analysis, the basic financial statements and the notes to the financial statements. The financial statements are presented in a manner similar to that of a private business, using the economic resources measurement focus and the accrual basis of accounting. The financial statements report information for all Authority operations. The Statement of Net Deficit includes all of the Authority's assets and liabilities. All of the revenues and expenses of the Authority are accounted for in the Statements of Revenues, Expenses and Changes in Net Deficits.

In addition, program financial statements are presented as supplemental schedules. These statements separate the financial statements into the Restricted Bond Fund and General Operating Fund.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED JUNE 30, 2010 AND 2009

The financial statements of the Authority have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Authority has applied all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989 (unless they conflict with or contradict GASB pronouncements): Statements and Interpretations of the Financial Accounting Standards Board, Accounting Principles Board Opinions and Accounting Research Bulletins of the Committee on Accounting Procedures. All program and general operating funds of the Authority are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet. The operating statements for all funds present increases (e.g., revenues) and decreases (e.g., expenses) in net fund equity. These funds utilize the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Management believes that the present value amount of TSRs that will be collected over time is approximately \$333,764,236, an amount equal to the net deficit.

Economic Outlook

The volume of cigarette shipments is a major factor in determining the amount of TSRs. As shipments decline resulting in lower TSRs, the amount of time it will take to fully redeem the Authority's bonds is lengthened. Shipments of cigarettes have decreased at a rate faster than was predicted when the TSA's bonds were issued in 2002. Over the past few years this has been further magnified as significant increases in tobacco excise taxes in many states at various times, and on the federal level in April 2009, have been enacted. As of FY 2010 year end, varying levels of public smoking bans exist in all but eleven states, further contributing to a decline (reported to be 8.6% in 2009 over the prior year), in tobacco consumption. The decline of consumption is projected to slow to 3 - 4% in the near term.

FINANCIAL ANALYSIS OF THE AUTHORITY

Statements of Net Deficit

The following table summarizes the changes in assets, liabilities, and net deficits between the years ended June 30, 2010 and 2009 (in millions):

Statements of Revenues, Expenses, and Changes in Net Deficit

The following table summarizes the activities in revenues and expenses between the years ended June 30, 2010 and 2009 (in millions):

	<u>2010</u>	<u>2009</u>	<u>Change</u>	
Revenues				
Tobacco settlement revenues	\$ 44.0	\$ 55.0	\$ (11.0)	(20.0%)

Change in net deficit	<u>\$ 14.6</u>	<u>\$ 24.9</u>	<u>\$ (10.3)</u>	<u>(41.4%)</u>

TSRs of \$44.0 million and \$28.5 million in interest on debt are the primary components of total revenues and expenses, respectively, for the Restricted Bond Program.

During fiscal year 2010, revenue received for general operations included interest earned on investments. General operating expenses within the General Operating Fund (\$85,841) for the fiscal year 2010 is comprised of allocable salaries and wages, legal expenses and other general and administrative expenses.

DEBT ADMINISTRATION

The Authority has long-term debt obligations of \$414.9 million, net of bond discounts at June 30, 2010. The Authority's bond funds are held by a trustee who ensures that bond resolution requirements are met, including payments of debt service and funding of necessary reserves. At June 30, 2010, amounts held by the trustee and future receipts of TSRs represent full funding of these requirements.

The bonds were sold pursuant to a Purchase and Sale Agreement between the Authority and the state of Washington in which TSRs (\$30 million by July 1, 2003, and 29.2% of the TSRs thereafter) were purchased by the Authority for a one-time cash distribution of \$450 million to the State of Washington. The bonds are solely secured by the "right to receive" TSRs from major tobacco companies under the Master Settlement Agreement. The Bonds consist of Serial Bonds and Turbo Term Bonds. The Turbo Term Bonds are subject to redemption in accordance with the schedule of Sinking Fund Installments and, in addition, are subject to mandatory redemption to the extent that the funds remain on each payment date after meeting all current bond obligations ("Turbo Redemptions").

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEARS ENDED JUNE 30, 2010 AND 2009

The Authority and the state of Washington covenanted to do and perform all acts and things permitted by law and the Bond Indenture which are necessary or desirable in order to ensure that interest paid on the Tax-Exempt Bonds will be excluded from gross income for federal income tax purposes and shall take no action that would result in such interest not being excluded from gross income for federal income tax purposes.

The Authority has no general obligations bonds and does not currently have an issuer credit rating.

Additional information on the Authority's long-term liabilities can be found in Note 5 of this report.

Statements of Revenues, Expenses and Changes in Net Deficit

The following table summarizes the combined changes in net deficit between the fiscal years 2009 and 2008 (in millions):

	<u>2009</u>	<u>2008</u>	<u>Change</u>	
Revenues				
Tobacco settlement revenues	\$ 55.0	\$ 54.5	\$ 0.5	0.9%

Change in net deficit	<u>\$ 24.9</u>	<u>\$ 24.6</u>	<u>\$ 0.3</u>	1.2%

During the fiscal year ended June 30, 2009, the Authority's combined total assets decreased by \$0.9 million primarily due to the net decrease in cash equivalents and investments (\$1.1 million) and unamortized bond issuance costs (\$0.2 million), partially offset by an increase in the TSRs receivable (\$0.4 million). Combined total net income of \$ 24.9 million for fiscal year 2009 represented a decrease in net revenue of \$0.9 million from fiscal year 2008. This decrease was attributable to the decrease in interest income (\$1.4 million) as the reserve funds were invested midyear in short term money market funds with yields less than that of the investment agreement terminated due to provider default.

Note 1 - Organization, Program Funds and Description of Business

The Tobacco Settlement Authority (the "Authority") was formed in April 2002 pursuant to legislation passed by the Washington State Legislature in March 2002 (RCW 43.340) and signed into law by Governor Gary Locke. It is a public instrumentality separate and distinct from the State. However, because the State appoints the governing body and is entitled to the resources of the Authority, the financial accountability criteria as defined by the Governmental Accounting Standards Board ("GASB") have been met. As such, the Authority is presented as a blended component unit of the State in its Comprehensive Annual Financial Report ("CAFR").

The Authority board consists of five directors. The chair of the Authority is appointed by, and serves at the pleasure of, the governor. The term of the remaining directors is four years from the date of their appointment.

The Authority was created to issue bonds to securitize a portion of the future revenue stream available under the Master Settlement Agreement ("MSA") in order to generate \$450 million of cash for the state of Washington (the "State") in the 2002-2004 biennium. In November 2002, \$517 million of bonds were issued and \$450 million was deposited by the Authority into the State general fund in exchange for acquiring 29.2% of the State's tobacco revenue settlement stream. The final maturity of the bonds is in 2032, however at the date of bond closing, it was estimated that the bonds would remain outstanding for a 17-year period. For further information on the MSA, see Note 6.

Payment on the bonds is an obligation only of the Authority and not an obligation of the state of Washington. Neither the faith and credit nor the taxing power of the state of Washington or any municipal corporation, subdivision or agency of the state is pledged to the payment of the bonds.

The Authority includes two funds - the Restricted Bond Fund and General Operating Fund. The Restricted Bond Fund accounts for the tobacco revenue settlement stream and the debt service transactions. The General Operating Fund accounts for the fiscal activities of the ongoing program responsibilities of the Authority. The Authority's fiscal year begins on July 1 and ends on June 30.

Administrative and technical support for the Authority is provided by the Washington State Housing Finance Commission, which was reimbursed for its initial costs from the proceeds of the sale of the bonds and subsequently from the TSA's operating fund. Accounting and staff services are to be provided until the bonds are retired with further reimbursements for services to be drawn, as necessary, from the revenues used to repay the debt.

Note 2 - Summary of Significant Accounting Policies

The financial statements of the Authority have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Authority has applied all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989 (unless they conflict with or contradict GASB pronouncements): Statements and Interpretations of the Financial Accounting Standards Board, Accounting Principles Board Opinions and Accounting Research Bulletins of the Committee on Accounting Procedures.

Note 2 - Summary of Significant Accounting Policies (Continued)

The most significant of the Authority's accounting policies are described below.

Measurement Focus and Basis of Accounting - All program and general operating funds of the Authority are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of revenues, expenses and changes in net assets for all funds present increases (e.g., revenues) and decreases (e.g., expenses) in net fund equity. These funds utilize the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Unclassified Balance Sheet - The Authority's business cycle is greater than one year. As such, all assets and liabilities as shown on the Statement of Net Deficit are unclassified.

Cash and Cash Equivalents - Cash deposits held in the bond issue are held in the corporate trust departments of commercial banks (the "Trustee") in the bond issue's name. Cash deposits held by the general operating fund are entirely covered by Federal Depository Insurance Corporation ("FDIC") or by collateral held in a multiple financial institution collateral pool administered by the Washington Public Deposit Protection Commission ("PDPC").

For purposes of the statement of cash flows, the Authority considers all highly liquid, interest-bearing instruments purchased with an original maturity of three months or less that are readily convertible to cash to be cash and cash equivalents.

Investments - Investments are comprised of certificates of deposits as of June 30, 2010 and 2009. The Authority's Trustee holds all of the Authority's investments in the name of the Authority.

Unamortized Bond Issuance Costs and Discounts - Unamortized bond issuance costs and unamortized bond discounts are amortized using the bonds outstanding method over the expected term of the life of the bonds.

Bonds Payable - Current interest serial and term bonds are stated at their principal amount outstanding, net of unamortized bond discount.

Income Taxes - The Authority is exempt from federal income taxes under Internal Revenue Code (IRC) Section 115(a) and accordingly, no provision for income taxes was made for the years ended June 30, 2010 and 2009.

Tobacco Settlement Revenues - The purchase and sale agreement between the Authority and the state of Washington conveyed the right to the first \$30 million of the tobacco settlement revenues ("TSRs") for the fiscal year ended June 30, 2003 and 29.2% of the tobacco settlement revenues thereafter. They are to be deposited with the Authority's Trustee on its behalf until such time as the bond obligations are fully paid.

Note 2 - Summary of Significant Accounting Policies (Continued)

In September 2006, the GASB issued Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues* effective for financial statements periods beginning on or after December 15, 2006. This Statement requires the Authority to recognize the purchase of TSR's from the State of Washington as a purchase of a future revenue stream as well as recognize a deferred charge on its Statement of Net Deficit for any future transaction. However, the Statement permits, but does not require the Authority to apply the Statement to previous transactions. Application to prior transactions would require restatement with application of the cumulative impact to the beginning net assets of the earliest year reported in the comparative statements. The initial impact of electing to implement GASB 48 for the existing transaction would result in a positive net asset position at restatement with an annual reduction in net assets (or a loss on bond operations each year) until the bond is fully redeemed. Management believes that restatement would not offer any significant value to the readers of the TSA financial statements since they are accustomed to the current presentation. Further, management believes that such implementation would limit historical comparability and, therefore its, predictive value. Therefore, retrospective application of this section of the Statement was not implemented.

As such, as provided in GASB 48, the event that results in the recognition of an asset and revenue is the domestic shipment of cigarettes. The Authority estimates accrued TSRs that derive from sales of cigarettes from January 1 to June 30, according to the annual TSRs payment that are based on cigarette sales from the preceding calendar year and historical payment trends. TSRs recognized for 2010 and 2009 included an accrual of \$22,394,149 and \$24,385,541, respectively.

Other Fee Income - The Authority is entitled to receive operating funds each year from TSRs as outlined in the bond indenture. However, the Authority has the option to deliver an officer's certificate to the Trustee on or before April 15 of each year certifying changes to the amount of operating funds to be drawn. For fiscal years 2010 and 2009, the Authority delivered officer's certificates to the Trustee directing that no operating funds be disbursed for those years.

Use of Estimates - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions in determining the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

Net Deficit - The net deficit balances of \$333,764,236 at June 30, 2010 and \$348,358,849 at June 30, 2009 reflect unrestricted net deficits as defined by GASB Statement No. 34. This balance is comprised of amounts from two funds. The general operating fund has a net asset balance of \$330,902 at June 30, 2010 and \$414,126 at June 30, 2009. The restricted bond fund has a net deficit balance of \$334,095,138 at June 30, 2010 and \$348,772,975 at June 30, 2009. Management believes that the present value of the TSR's allocated to the Authority approximates the net deficit.

Arbitrage Rebate - No arbitrage rebate is owed to the United States Treasury for the years ended June 30, 2010 and 2009.

Note 3 - Investments

Bond Issue Investment Policy - The trust indenture for the bond issue outlines the permitted investments. Although all of the program funds must be used for program purposes, certain funds have been restricted for payment of debt service as required by the indenture.

Operations Investment Policy - The Authority can invest in nongovernmental investments including certificates of deposit, banker's acceptances and repurchase agreements.

In addition, the following governmental investments are eligible:

1. Treasury bills, notes and other obligations issued by the United States Department of the Treasury and backed by the full faith and credit of the U.S. government.
2. Federal Home Loan Bank notes and bonds.
3. Federal Land Bank bonds.
4. Federal National Mortgage Association notes, debentures and guaranteed certificates of participation.
5. The obligations of certain government-sponsored corporations whose obligations are eligible as collateral for advances to member banks as determined by the Board of Governors of the Federal Reserve System.
6. Shares of mutual funds with portfolios consisting of only U.S. government bonds or U.S. government guaranteed bonds issued by federal agencies with average maturities less than four years.

As of June 30, 2010 and 2009, the Authority, in its General Operating Fund, held Certificate of Deposits with Bank of America totaling \$125,000 and \$350,000, respectively, with original maturities from 4 to 12 months with rates of 1.05% for 2010 and ranging from 1.20% to 2.65% for 2009.

All other excess funds are held as cash and cash equivalents.

Note 4 - Contracted Staff Services

The Washington State Housing Finance Commission provides staff and other administrative services to the Authority. Total charges were \$29,650 and \$30,348 for the years ended June 30, 2010 and 2009, respectively. The Authority has no directly hired staff and as such has no pension obligations. The Authority had fees payable totaling \$34,507 and \$26,634 with the Washington State Housing Finance Commission at June 30, 2010 and 2009, respectively.

Note 5 - Bonds Payable

The bonds are limited obligations of the Authority payable solely from 29.2% TSRs, and secured by a right to receive TSRs for Washington State, restricted investments, and undisbursed bond proceeds and the earnings thereon held under the indenture authorizing the bonds.

As of June 30, 2010, the Authority had outstanding bonds of \$422.8 million. The bonds bear interest rates ranging from 5.50% to 6.625% and mature in varying amounts through 2032. Future principal and interest requirements are shown in the following table.

Years Ending June 30,	Principal Redemptions	Interest Requirements	Total

Note 6 - Tobacco Settlement Revenues

TSRs consist of the amounts to be received under the terms of a Master Settlement Agreement among participating cigarette manufacturers and 46 states and six other U.S. jurisdictions ("Settling States"). The MSA is an industry wide settlement of litigation between the Settling States and the Original Participating Manufacturers ("OPMs") and was entered into between the attorneys general of the Settling States and the OPMs on November 23, 1998.

The national MSA requires annual payments by the four largest tobacco companies to the participating states; up to \$206 billion will be received during the first 25 years of the agreement. The State of Washington is scheduled to receive approximately \$4 billion during the first 25 years.

Note 6 - Tobacco Settlement Revenues (Continued)

Management believes that the present value of the amount of TSRs that will be collected by the Authority from the State of Washington over time is approximately \$333,764,236, an amount equal to the net deficit. However, prior to GASB 48, which was effective for years beginning on or after December 15, 2006, accounting principles generally accepted in the United States of America did not allow these future revenues to be recorded in the financial statements. As such, the only TSRs receivable recorded in the accompanying financial statements are those estimated to accrue due to cigarette shipments from January 1 to June 30, 2010 and January 1 to June 30 2009.

Note 7 - Contingencies

Certain smokers, consumer groups, cigarette manufacturers, cigarette importers, cigarette distributors, Native American tribes, taxpayers, taxpayers' groups, and other parties have instituted litigation against various tobacco manufacturers, including the Participating Manufacturers ("PMs"), as well as certain of the Settling States and other public entities. The lawsuits allege, among other things, that the MSA violates certain provisions of the United States Constitution, state constitutions, the federal antitrust laws, federal civil rights laws, state consumer protection laws and unfair competition laws, certain of which actions, if ultimately successful, could result in a determination that the MSA is void or unenforceable. The lawsuits seek, among other things, an injunction against one or more of the Settling States from collecting any monies under the MSA and barring the PMs from collecting cigarette price increases related to the MSA and/or a determination that the MSA is void or unenforceable.

In addition, class action lawsuits have been filed in several federal and state courts alleging that under the federal Medicaid law, any amount of tobacco settlement funds that the Settling States receive in excess of what they paid through the Medicaid program to treat tobacco-related diseases should be paid directly to Medicaid recipients. To date, no such lawsuits have been successful. The enforcement of the terms of the MSA may, however, continue to be challenged in the future. In the event of an adverse court ruling, the Authority may not have adequate financial resources to make payment on the Series 2002 Revenue Bond.

Members of the Authority's board of directors and persons acting on the Authority's behalf, while acting within the scope of their duties or employment, shall not be subject to any personal liability resulting from carrying out the powers and duties conferred on them, and shall have the indemnification rights under the provisions of the Authority's Public Officials and Employees Liability insurance policy.
